

## Department of Placements and Training

### CIRCULAR

Ref: //Dr.TTIT/2017-18/089

Date: 08.05.2018

We are happy to share that the 2018 batch students registered for AMCAT are eligible to participate in “**Comcast India**” drive for “**Product Development**” position.

#### Company Profile:

##### **About the Company:**

Comcast Corporation (NASDAQ: CMCSA) is an American global telecommunications conglomerate that is the largest broadcasting and cable television company in the world by revenue (through its Xfinity brand). It is the second-largest Pay-TV company after AT&T, largest cable TV company and largest home Internet service provider in the United States, and the nation's third-largest home telephone service provider. The company's headquarters is located in Philadelphia, Pennsylvania. As the owner of the international media company NBCUniversal since 2011, Comcast is a producer of feature films and television programs intended for theatrical exhibition and over-the-air and cable television broadcast.

Comcast Corporation is ranked # 31 in FORTUNE 500 and the Company is one of USA's most sought-after employers, according to LinkedIn's 2018 Top 50 Companies list released this week. Comcast is ranked number #7

COMCAST India - Connecting the World with Cutting Edge Technology

Comcast Cable, has opened a subsidiary in Chennai, India (Comcast India Engineering Center I, LLP). As a global in-house Engineering, Development and Innovation Centre, we are driven to learn something new every day. Working together, we develop and deliver products and services that transform the Comcast customer experience and facilitate connections all over the world.

Comcast is at the leading edge of media and technology, providing over 30 million customers with exciting new ways to connect with their world. With over 50 years of innovation, we're looking ahead to our future and that means growing our global team and capabilities.

By creating exciting products like XFINITY X1, our class defining video experience, as well as groundbreaking products like our XFi wireless gateways and X1 voice remotes, we work every day to make a positive impact through innovation and continually develop and deliver products that transform our customer experience.

Comcast's Technology, Product and Customer Experience (TPX) organization works at the intersection of media and technology. Our innovative teams are continually developing and delivering products that transform the customer experience. From creating apps like TVGo to new features such as the Talking Guide on the X1 platform, we work every day to make a positive impact through innovation in the pursuit of building amazing products that are enjoyable, easy to use and accessible across all platforms. The team also develops and supports our evolving network architecture, including next-generation consumer systems and

technologies, infrastructure and engineering, network integration and management tools, and technical standards.
