Date: 20.05.2018

We are happy to share that the 2018 batch Computer science Engineers are eligible to participate in “**Microsoft**” drive for “**Research Intern**” position.

Company Profile:

Company: Microsoft India (R&D) Pvt Ltd

Microsoft GTSC was established in October of 2003 in India, it is part of Microsoft’s Customer Service and Support (CSS) organization which has locations throughout the Americas, EMEA, Asia Pacific and Greater China. Microsoft’s CSS organization supports over 170 Microsoft products which range from the Consumer to Enterprise customer segments.

This includes the MSN and Home and Entertainment products as well as the more deeply technical products from Developer Support and Enterprise Platform Support to Enterprise Messaging Support and Enterprise Business Applications Support. The site in Bangalore is a part of a global network that has over 50 million customer touch points on an annual basis and provides services to the Consumer and Enterprise customer segments.

Company Website: www.microsoft.com

Positions: Research Intern

Job Location: Bangalore

Salary: Best in Industry

Experience: Freshers

Qualification: Must have a degree in Computer Science Engineering

Job Description:

Internships are available in all areas of research. In the application process, we’ll work with you to find the opportunity that best aligns with your interests. Internships are offered year round, though they typically begin in the summer. All internships are paid. And, we’ll help with visa applications where needed.

Responsibilities:

Interns put inquiry and theory into practice. Alongside fellow doctoral candidates and some of the world's best researchers, interns learn, collaborate, and network for life. Interns not only advance their own careers, but they also contribute to the exciting R&D strides our researchers are making. During the internship, students are paired with mentors and expected to collaborate with other interns and researchers, present findings, and contribute to the vibrant life of the community.
